

CHINNAM MALLIKARJUNA RAO

Full Stack Developer | REST APIs & AI Integration | AWS & DevOps
6305182354 | chinnammallikarjunarao.99@gmail.com | [LinkedIn](#) | [GitHub](#) | India

Professional Summary

Computer Science undergraduate with hands-on experience developing full-stack web applications, Python-based systems, AI-integrated applications, and AWS cloud solutions. Skilled in Python, Java, JavaScript, React.js, Node.js, REST APIs, SQL/NoSQL, AWS, Docker, Linux, and Git/GitHub. Built and deployed projects involving AI/LLM integration, event-driven cloud architectures, and DevOps practices.

Education

B.Tech – Computer Science & Engineering (Information Technology) 2023 – 2027
Sir C R Reddy College of Engineering, Eluru **CGPA: 7.8/10**

Intermediate – MPC 2021 – 2023
Sri Chaitanya Junior College, Eluru **81.2%**

SSC 2021
Viswakavi EM High School, Eluru **Grade: 9.8/10**

Technical Skills

Programming	Python, Java, JavaScript, SQL
Web Development	React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, REST APIs, MongoDB
Cloud & DevOps	AWS, Docker, Linux, Git, GitHub, Networking

Projects

Event-Driven Cloud Threat Detection & Automated Incident Response *AWS / Python*

- Designed an event-driven cloud security system to detect suspicious AWS activities and automate incident response.
- Integrated AWS CloudTrail, CloudWatch Logs, EventBridge, and Lambda to capture, process, and evaluate security-related events.
- Implemented Python-based threat detection rules for identifying suspicious activity patterns and triggering automated alerts through Amazon SNS.
- Used DynamoDB to store detected security events for centralized tracking and analysis.

Mocker – AI-Powered Mock Interview Platform *React.js / Node.js / MongoDB / AI*

- Developed a full-stack AI-powered mock interview platform for evaluating candidates across technical, communication, English-speaking, and logical skills.
- Built React-based dashboards and analytics to visualize candidate performance across multiple assessment dimensions.
- Developed REST APIs and backend services using Node.js and Express.js with MongoDB for application data management.
- Integrated AI-driven evaluation and workflow automation for generating interview assessments and performance insights.

Postly – Full-Stack Blogging & Social Publishing Platform *React.js / Node.js / Express.js / MongoDB*

- Developed a full-stack content platform combining social-feed interactions with long-form article publishing.
- Built responsive React interfaces with Redux Toolkit for managing application state and user interactions.
- Implemented RESTful backend APIs using Node.js and Express.js with MongoDB for persistent data management.
- Developed core functionality for content creation, image handling, user interactions, and article publishing.

Experience

Cloud & DevOps Intern – APSSDC [2 Months]
APSSDC *[Remote]*

- Worked on practical cloud and DevOps concepts including AWS, Linux, networking, and containerization.
- Gained hands-on exposure to deploying, managing, and troubleshooting cloud-based infrastructure and applications.
- Applied DevOps practices through practical labs and project-based implementation.

Certifications

- AWS Cloud Internship Certificate
- APSSDC Cloud & DevOps Internship Certificate
